PRESS RELEASE

Storage capacity marketing: Uelsen SY 23 + 2 Product

Berlin, 23 September 2022. Storengy Deutschland will be marketing a working gas volume of 2 TWh in 20 bundles à 100 GWh in the storage facility in Uelsen. For the first time, a variable contract duration and partial allocation are being offered in order to give customers the greatest possible flexibility in view of the tight gas market.

Overview of the product

Working gas volume	2 TWh in 20 bundles, around 100 GWh per bundle
Injection rate/bundle	35 MWh/h (120 days nominal, 140 days real)
Withdrawal rate/bundle	45 MWh/h (95 days nominal, 104 days real)
Contract duration	Variable, one to three storage years, from 01.04.2023
Operative costs	Included for the first cycling, afterwards 0,50 Euro/MWh
Pricing	Fixed price in Euro/MWh with SSBO conditions of participation
Auction date	A date between 05.10.2022 and 13.10.2022, 01:00 p.m. – 03:00 p.m. (CET/CEST)
Allocation until	Auction date until 03:45 pm
Injection/withdrawal curves	Curves need to be respected

Interested parties will need to register in the **storage portal** with the corresponding mandate beforehand in order to be able to participate in the auction.

About Storengy Deutschland
Storengy Deutschland, a company of ENGIE Group, is one of the leading gas storage companies in Germany. With around 150 employees across Germany, we are a reliable partner for storage services: we plan, build, and operate storage facilities and market their storage capacities. Our mission is to produce and store climate-neutral energy in order to sustainably supply tomorrow's generations. Therefore, we are developing innovative solutions for storing hydrogen and producing renewable gases. The company's headquarters are in Berlin.
