Injection/withdrawal curves	Curves need to be respected

Interested parties will need to register in the new [storage portal](#) beforehand in order to be able to participate in the auction.

About Storengy

Storengy Deutschland is one of the largest natural gas storage companies in Germany. It is a subsidiary of Storengy SAS, which bundles the ENGIE group's global gas storage activities. Storengy is the market leader for storage services in Europe. Its core business includes the planning, construction and operation of storage facilities and the marketing of gas storage capacities. Storengy Deutschland GmbH operates six gas storage facilities across Germany and markets their gas storage capacity. Storengy Deutschland Betrieb GmbH, a 100% subsidiary of Storengy Deutschland GmbH, implements the technical operation of the gas storage facilities and also provides services (operation and maintenance) for third-party facilities. A central control room in Hanover ensures the remote operation of technical facilities. The company's headquarters are based in Berlin. As an innovative partner for the zero carbon transition, Storengy provides its expertise to numerous partners worldwide to develop geothermal projects (heat and power production) as well as energy storage and power-to-X solutions.
