

Storage capacity marketing: 1800 GWh at three caverns storage facilities available from 2023

Berlin, 3 November 2022. Storengy Deutschland will be marketing a working gas volume of around 1800 GWh at three cavern storage facilities in Harsefeld (600 GWh), Lesum (720 GWh) and Peckensen (480 GWh). According to the principle "First come, first served", the capacities can be booked in an extended "Call for Offers" period. Due to the volatile spreads, this tender offers the greatest possible flexibility.

Overview of the product

Harsefeld	
Working gas volume	600 GWh in five bundles, around 120 GWh per bundle
Injection rate/bundle	84 MWh/h (60 days nominal, 60 days real)
Withdrawal rate/bundle	168 MWh/h (30 days nominal, 45 days real)
Lesum	
Working gas volume	720 GWh in six bundles, around 120 GWh per bundle
Injection rate/bundle	63 MWh/h (80 days nominal, 85 days real)
Withdrawal rate/bundle	168 MWh/h (30 days nominal, 45 days real)
Peckensen	
Working gas volume	480 GWh in four bundles, around 120 GWh per bundle
Injection rate/bundle	84 MWh/h (60 days nominal, 60 days real)
Withdrawal rate/bundle	230 MWh/h (22 days nominal, 29 days real)
Allgemeine Daten	
Contract duration	01.03.2023 – 01.05.2024
Registration	The signature of a framework contract is mandatory in order to place bids for the products
Operative costs	<u>Option 1</u> : included for the first cycling, afterwards 0,85 Euro/MWh, <u>Option 2</u> : not included, operative costs shall be paid from first MWh
Pricing	Fixed price in Euro/MWh, profit share component from optional participation in SSBO tenders
Call for Offers	16.11.2022, 1:00 p.m. (CET/CEST), – 13.01.2023, 5.30 p.m. (CET/CEST) or until all bundles are marketed; bids are to be sent per email
