

## Storage capacity marketing: „Virtual SY 23 Product“

Berlin, 12 April 2023. Storengy Deutschland will be marketing a virtual storage product for the storage year 2023 based on the storage facilities in Harsefeld, Lesum, Peckensen, Schmidhausen and Uelsen. The product has a total working gas volume of around 156 GWh in four bundles of around 39 GWh each. The auction will be taking place on 20.04.2023. Binding offers must be submitted on the auction date by 03:00 p.m. (CEST). Interested parties need to be registered in the [storage portal](#) with the corresponding mandate beforehand in order to be able to participate in the auction.

### Overview of the product

| Product                     | Virtual SY 23 Product                                    |
|-----------------------------|--|
| Working gas volume          | 155.52 GWh in four bundles; 38.88 GWh per bundle         |
| Injection rate/bundle       | 18 MWh/h (90 days nominal, 90 days real)                 |
| Withdrawal rate/bundle      | 18 MWh/h (90 days nominal, 90 days real)                 |
| Contract duration           | 01.05.2023 - 01.05.2024                                  |
| Operative costs             | Included for the first cycling, afterwards 0.85 Euro/MWh |
| Pricing                     | Fixed price in Euro/MWh                                  |
| Auction date                | 20.04.2023   |
| Allocation until            | Auction date by 03:20 p.m. (CEST) at the latest          |
| Injection/withdrawal curves | Flat curves  |

### About Storengy Deutschland

Storengy Deutschland, a company of ENGIE Group, is one of the leading gas storage companies in Germany. With around 150 employees across Germany, we are a reliable partner for storage services: we plan, build, and operate storage facilities and market their storage capacities. Our mission is to produce and store climate-neutral energy in order to sustainably supply tomorrow's generations. Therefore, we are developing innovative solutions for storing hydrogen and producing renewable gases. The company's headquarters are in Berlin.
