

Launch open season hydrogen storage

- **Storengy Deutschland is launching an open season for hydrogen storage in order to assess hydrogen storage needs.**
- **The open season is open from 15 February 2024 to 31 March 2024.**

Storengy Deutschland is calling on market players to express their interest in hydrogen storage in salt caverns in and around Lower Saxony in Germany. The participants' contribution will allow to quantify and qualify storage needs and therefore to define the appropriate infrastructure.

The open season is open to all market players and interested parties in a transparent, non-binding and non-discriminatory manner by 31 March 2024.

Open Season

About Storengy Deutschland

Storengy Deutschland, a company of ENGIE Group, is one of the leading gas storage companies in Germany. With around 150 employees across Germany, we are a reliable partner for storage services: we plan, build and operate storage facilities and market their storage capacities. Our mission is to store climate-neutral energy in order to sustainably supply tomorrow's generations. Therefore, we are developing innovative solutions for storing hydrogen and renewable gases. The company's headquarters are in Berlin.
