

Storage capacity marketing: Uelsen SY 25 + 2 Product

- **Storengy Deutschland will be marketing approximately 1,500 GWh of working gas volume in 15 bundles in its Uelsen pore storage facility for the storage years 2025/26, 2026/27 and 2027/28.**
- **The auction will take place on 10 April 2024.**

Storengy Deutschland will be marketing a working gas volume of approximately 1,500 GWh in 15 bundles with its Uelsen SY 25 + 2 Product. The storage product is offered for a contract duration from 1 April 2025 to 1 April 2028. Alternatively, a combination of the storage years 2025/26, 2026/27 or 2027/28 may be selected.

The operational costs are included for the first cycling of the respective storage year, after which a fee of EUR 0.85 per each injected MWh is charged. Injection and withdrawal curves need to be respected.

The auction will take place on 10 April 2024. In order to take part in the auction a registration in Storengy's Storage Portal and an authorisation for the auction platform are mandatory.

Overview of the product

Product	Uelsen SY 25 + 2 Product
Working gas volume	100.8 GWh in 15 bundles
Injection rate/bundle	35 MWh/h (120 days nominal, 140 days real)
Withdrawal rate/bundle	45 MWh/h (94 days nominal, 105 days real)

About Storengy Deutschland

Storengy Deutschland, a company of ENGIE Group, is one of the leading gas storage companies in Germany. With around 150 employees across Germany, we are a reliable partner for storage services: we plan, build and operate storage facilities and market their storage capacities. Our mission is to store climate-neutral energy in order to sustainably supply tomorrow's generations. Therefore, we are developing innovative solutions for storing hydrogen and renewable gases. The company's headquarters are in Berlin.
